How to use our QR Calendar *[we recommend you keep this section, or similar]*

Although we have printed as many important school dates as we could in this calendar, the school year is unpredictable and subject to change. That's why we've included a QR code on each page, that links directly to our online calendar, which is always up to date!

Simply scan the QR on the 1st of each month using your smartphone camera, and add any relevant updates to this calendar. This way, you'll always have the most up-to-date information at your fingertips!

Your co-operation and support in keeping our school community organised and connected is much appreciated. **Thank you!**

This area could include information about your Transition Year's involvement in collating the data for the School QR Calendar *(if applicable)*

We suggest keeping your back cover simple. A school crest, contact details, or a photograph would look great in this area. Just let us know your preference, and we'll design a bespoke back cover for you!

Please note that the information currently in the footer area cannot be altered.

This is an eco-friendly, zero-waste project. We print pre-ordered calendars to minimise waste. When you use this calendar, you're less likely to print out multiple copies of your school's online calendar, which saves on paper, ink, and electricity. This is better for our world and better for your pocket! Our QR calendars are made using recycled card. They are recyclable, compostable and biodegradable. By opting out of gloss or laminate, we reduce pollutants, and unnecessary waste, keeping our planet greener and cleaner! For further information visit: www.QRcalendars.com
